

## WBA Checklist (BT, AT, PFT)

	Type	WBA	Need	Done
<b>BT</b>				
<input type="radio"/>	CbD	Discussion of their management of crises	2	
<input type="radio"/>	CbD	Assess and manage a patient in acute pain on a pain round	1	
<input type="radio"/>	CbD	Not specified - Cases of moderate complexity encountered in their clinical practice	1	
<input type="radio"/>	CbD	Any of the 10 optional CbDs identified in the specialised study units	2	
<input type="radio"/>	DOPS	Not specified - Procedures encountered in their clinical practice	7	
<input type="radio"/>	DOPS	Central Venous Cannulation with the use of ultrasound guidance	1	
<input type="radio"/>	DOPS	Arterial Cannulation	1	
<input type="radio"/>	DOPS	"Can't Intubate, Can't Oxygenate" and use of the intubating LMA	1	
<input type="radio"/>	DOPS	Fibreoptic intubation	1	
<input type="radio"/>	DOPS	Perform a spinal block on a patient who is not anatomically difficult	1	
<input type="radio"/>	mini-CEX	Not specified - Cases of moderate complexity encountered in their clinical practice	11	
<input type="radio"/>	mini-CEX	Pre-assessment of a patient with multi-system disease	1	
<input type="radio"/>	MsF	Various areas	1	
<b>AT</b>				
<input type="radio"/>	CbD	Not specified - Cases including those of high complexity encountered in their clinical practice	1	
<input type="radio"/>	CbD	Any of the 10 optional CbDs identified in the specialised study units	4	
<input type="radio"/>	CbD	Discussion of their management of crises	2	
<input type="radio"/>	CbD	Assessment and management of a patient with a complex pain issue, for example acute on chronic pain or history of IVDU, on a pain round	1	
<input type="radio"/>	DOPS	"Can't Intubate, Can't Oxygenate" (CICO) and use of jet ventilation	1	
<input type="radio"/>	DOPS	Performance of an upper limb plexus block	1	
<input type="radio"/>	DOPS	Performance of a lower limb plexus block	1	
<input type="radio"/>	DOPS	Not specified - Procedures encountered in their clinical practice	5	
<input type="radio"/>	mini-CEX	Pre-assessment of a complex patient with multiple co-morbid diseases	1	
<input type="radio"/>	mini-CEX	Not specified - Cases including those of high complexity encountered in their clinical practice	15	
<input type="radio"/>	MsF	Various areas	1	
<b>PFT</b>				
<input type="radio"/>	CbD	Negotiated as part of an approved PFT program	2	
<input type="radio"/>	DOPS	Negotiated as part of an approved PFT program	0	
<input type="radio"/>	mini-CEX	Negotiated as part of an approved PFT program	0	
<input type="radio"/>	MsF	Various areas	1
